Flexibly Scalable Energy Efficient Networking

INTRODUCTION TO FLEX-SCALE

FLEX-SCALE PROJECT CONSORTIUM

Work programme HORIZON-JTI-SNS-2022
Programme Topic STREAM-B-01-03
Type of action HORIZON-JU-RIA
Project acronym: FLEX-SCALE

Contact person: Prof. Ioannis Tomkos (UPAT)
List of participants:

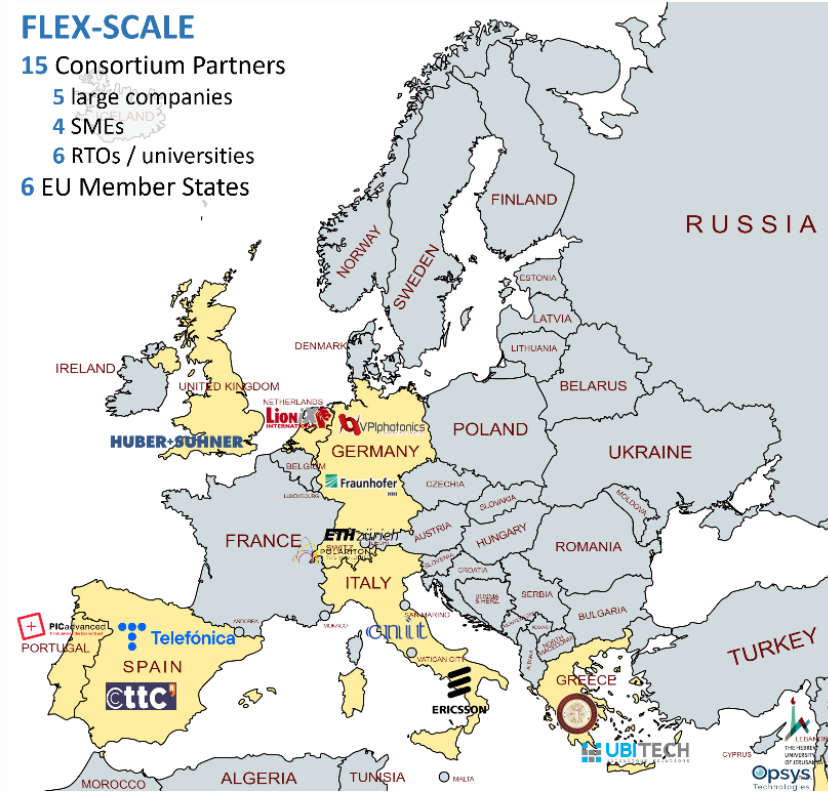

UNIVERSITY OF PATRAS

- CONSORZIO NAZIONALE INTERUNIVERSITARIO PER LE TELECOMUNICAZIONI
- CENTRE TECNOLOGIC DE TELECOMUNICACIONS DE CATALUNYA
- HUBER+SUHNER POLATIS LIMITED
- FRAUNHOFER GESELLSCHAFT ZUR FOERDERUNG DER ANGEWANDTEN FORSCHUNG E.V.
- THE HEBREW UNIVERSITY OF JERUSALEM
- LIONIX INTERNATIONAL BV
- OPSYS SENSING TECHNOLOGIES LTD
- PICADVANCED, SA
- ERICSSON TELECOMUNICAZIONI SPA
- TELEFONICA INVESTIGACION Y DESARROLLO SA
- UBITECH
- VPIPHOTONICS GMBH
- EIDGENOESSISCHE TECHNISCHE HOCHSCHULE ZUERICH
- POLARITON TECHNOLOGIES AG

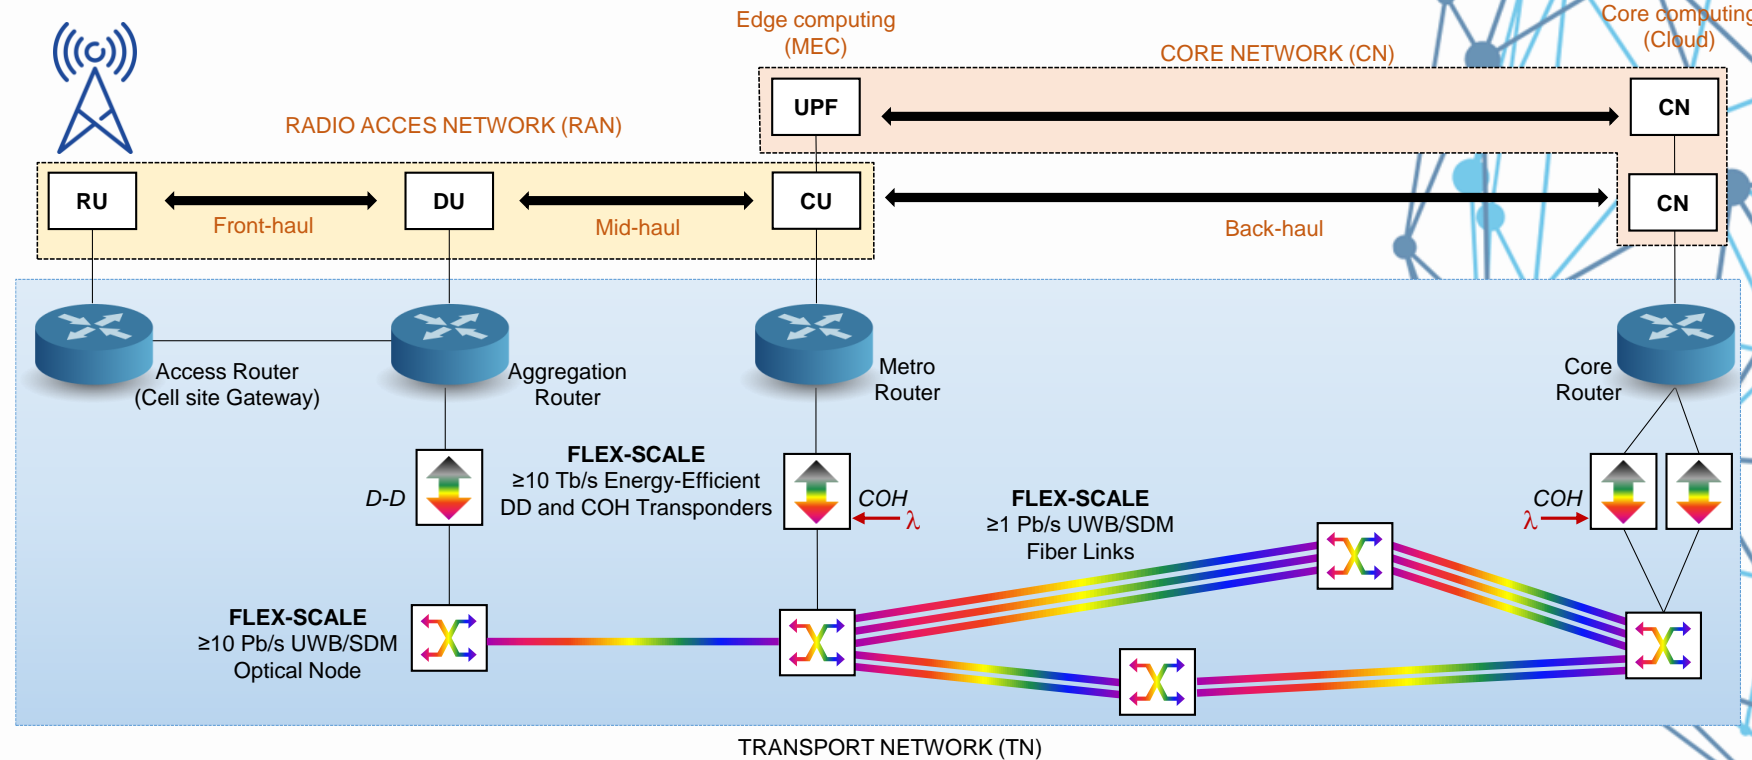

FLEX-SCALE

- 15 Consortium Partners
- 5 large companies
- 4 SMEs
- 6 RTOs / universities
- 6 EU Member States

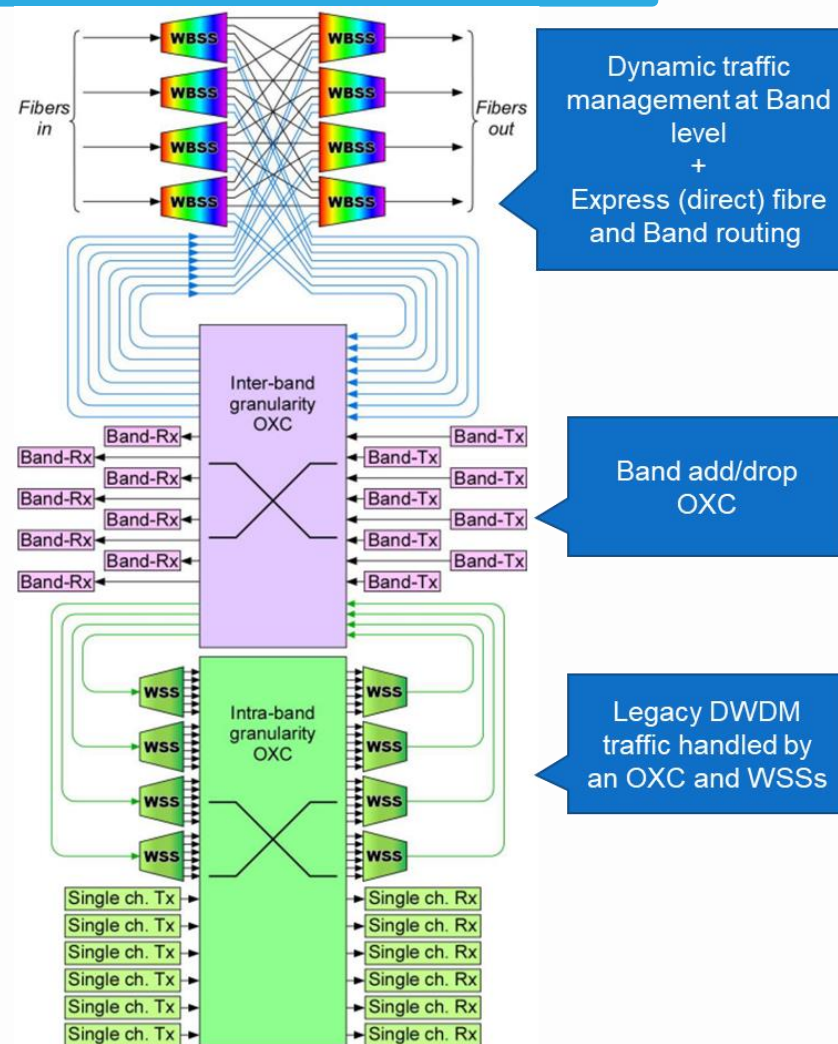

FLEX-SCALE SCOPE: END-TO-END 6G NETWORKING RELYING ON ADVANCED OPTICAL NETWORKING

- FLEX-SCALE consortium develops innovations that will enable flexible capacity scaling of 6G x-haul networks, while ensuring security and reducing costs & energy consumption per packet-flows, by utilizing:
 - Optoelectronic interfaces of line-systems to scale to ≥ 10 Tb/s,
 - Network link capacities to scale ≥ 1 Pb/s by utilizing UWB/SDM multiplexing schemes
 - Optical switching node capacities to scale to \sim tens Pb/s
 - Optical layer security solutions
 - SDN management of the packet-optical x-haul networks

MULTI-GRANULAR OPTICAL NODE ARCHITECTURE AND WAVEBAND-SELECTIVE SWITCH

- The FLEX-SCALE Switching Node architecture is based on a novel Multi-Granular architecture (MG-ON) and a new switching subsystem that can realize reconfigurable WaveBand-Selective Switching (WBSS), in addition to Spatial and Spectral Lanes switching using enhanced Optical Cross Connects (OXC) and conventional Wavelength Selective Switching (WSS)
- The WBSS is implemented as a compact programmable and rapidly reconfigurable PIC that is capable of dynamically processing the entire UWDM optical spectrum and as demanded dynamically carve portions of the spectrum into flexibly-defined, continuous, and flat spectral bands, which are subsequently switched to multiple output ports.
- The FLEX-SCALE MG-ON is a hierarchical network node that offers fast, route-and-select architecture at the band and fibre levels at the top tier, with a secondary route-and-select architecture implemented with today's per Band WSSs ensuring backwards compatibility with legacy transport schemes.

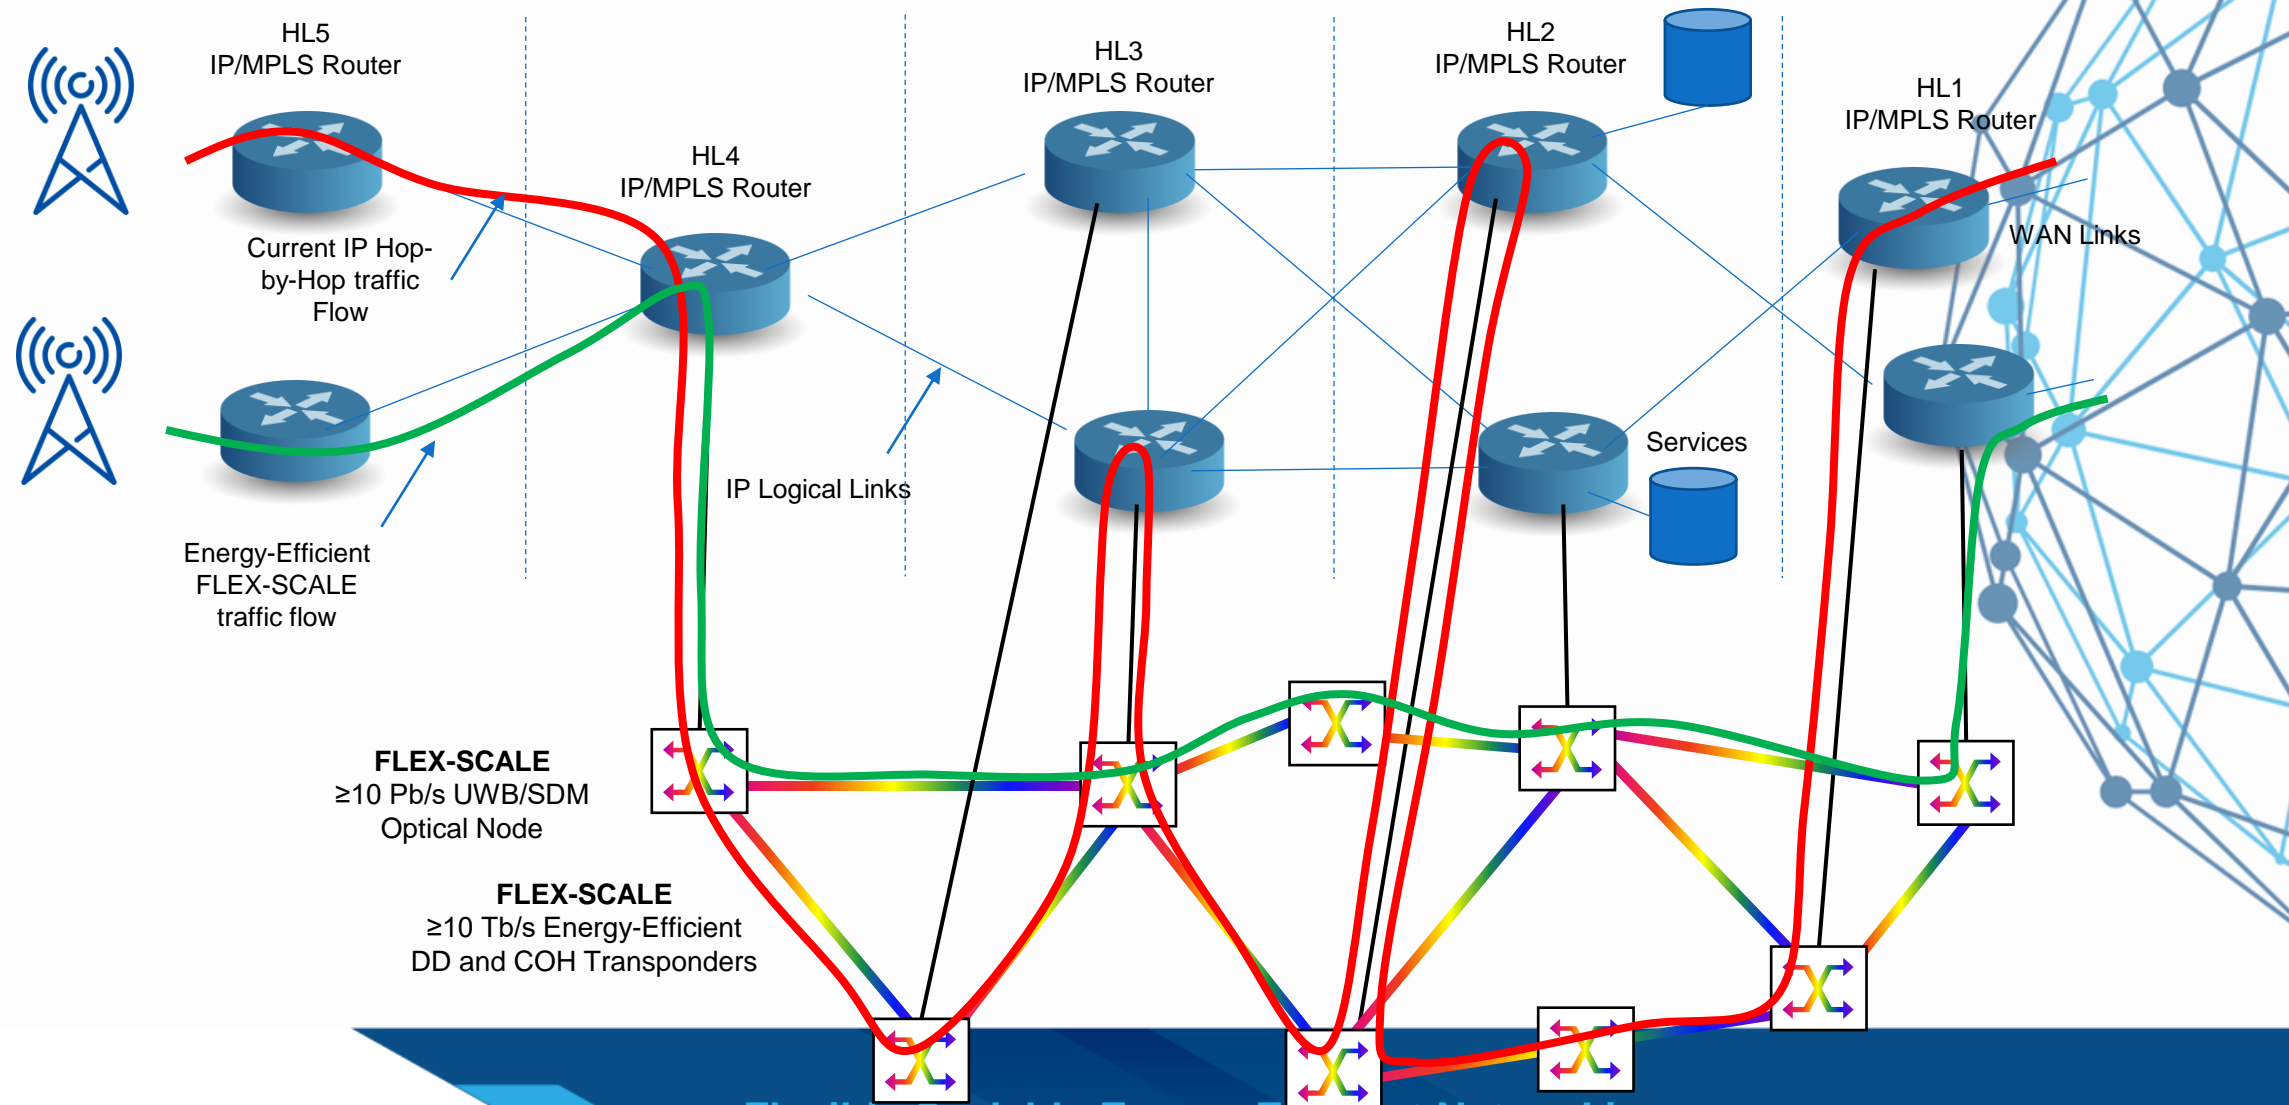

FLEX-SCALE

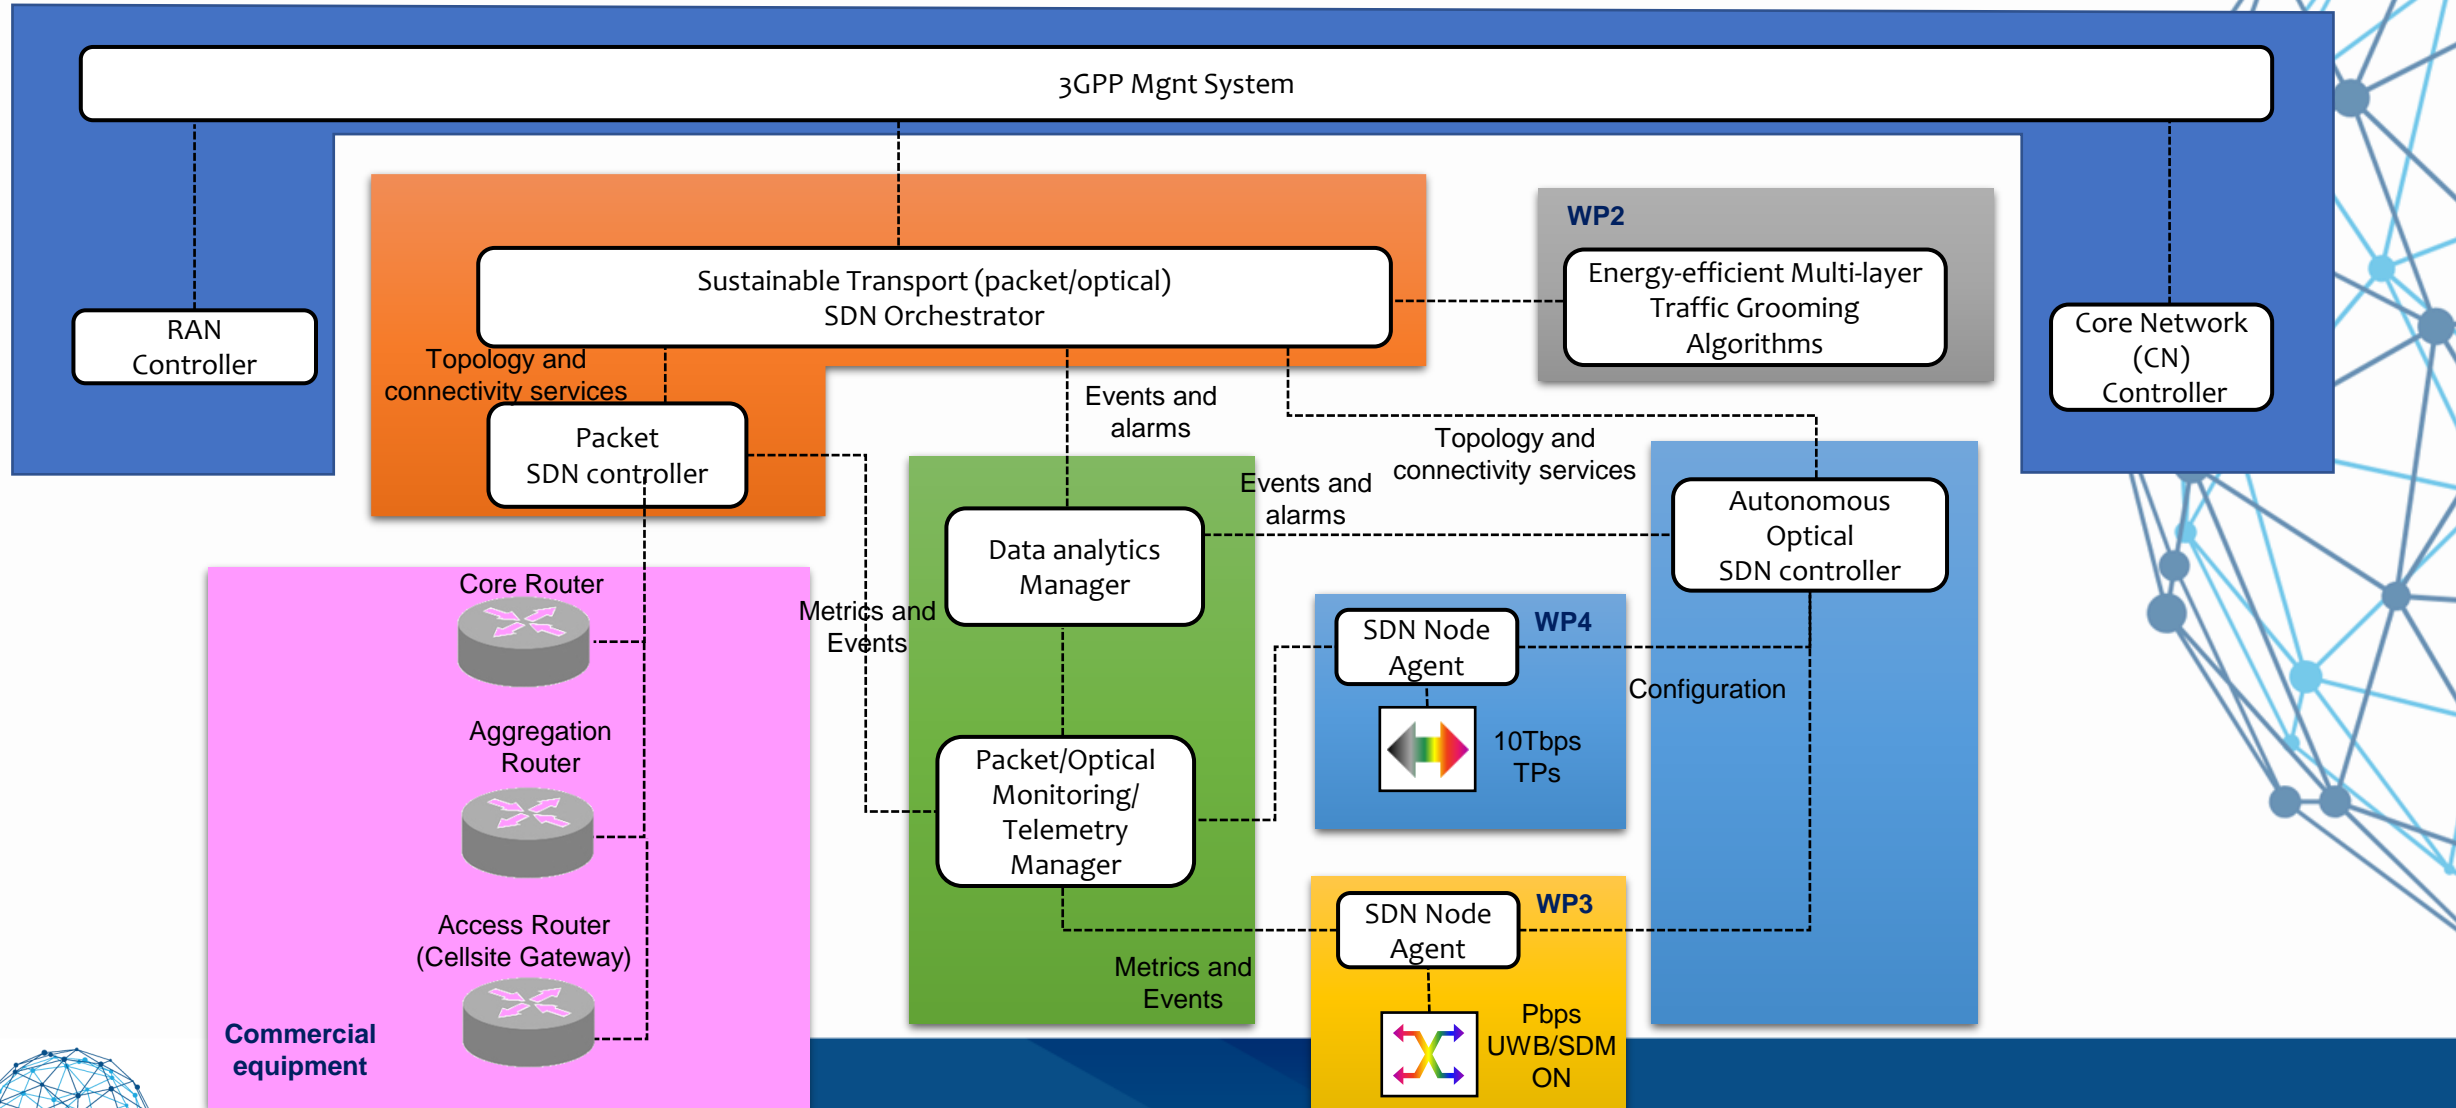

Flexibly Scalable Energy Efficient Networking

MULTI-GRANULAR PACKET-OPTICAL NODE CONTROL

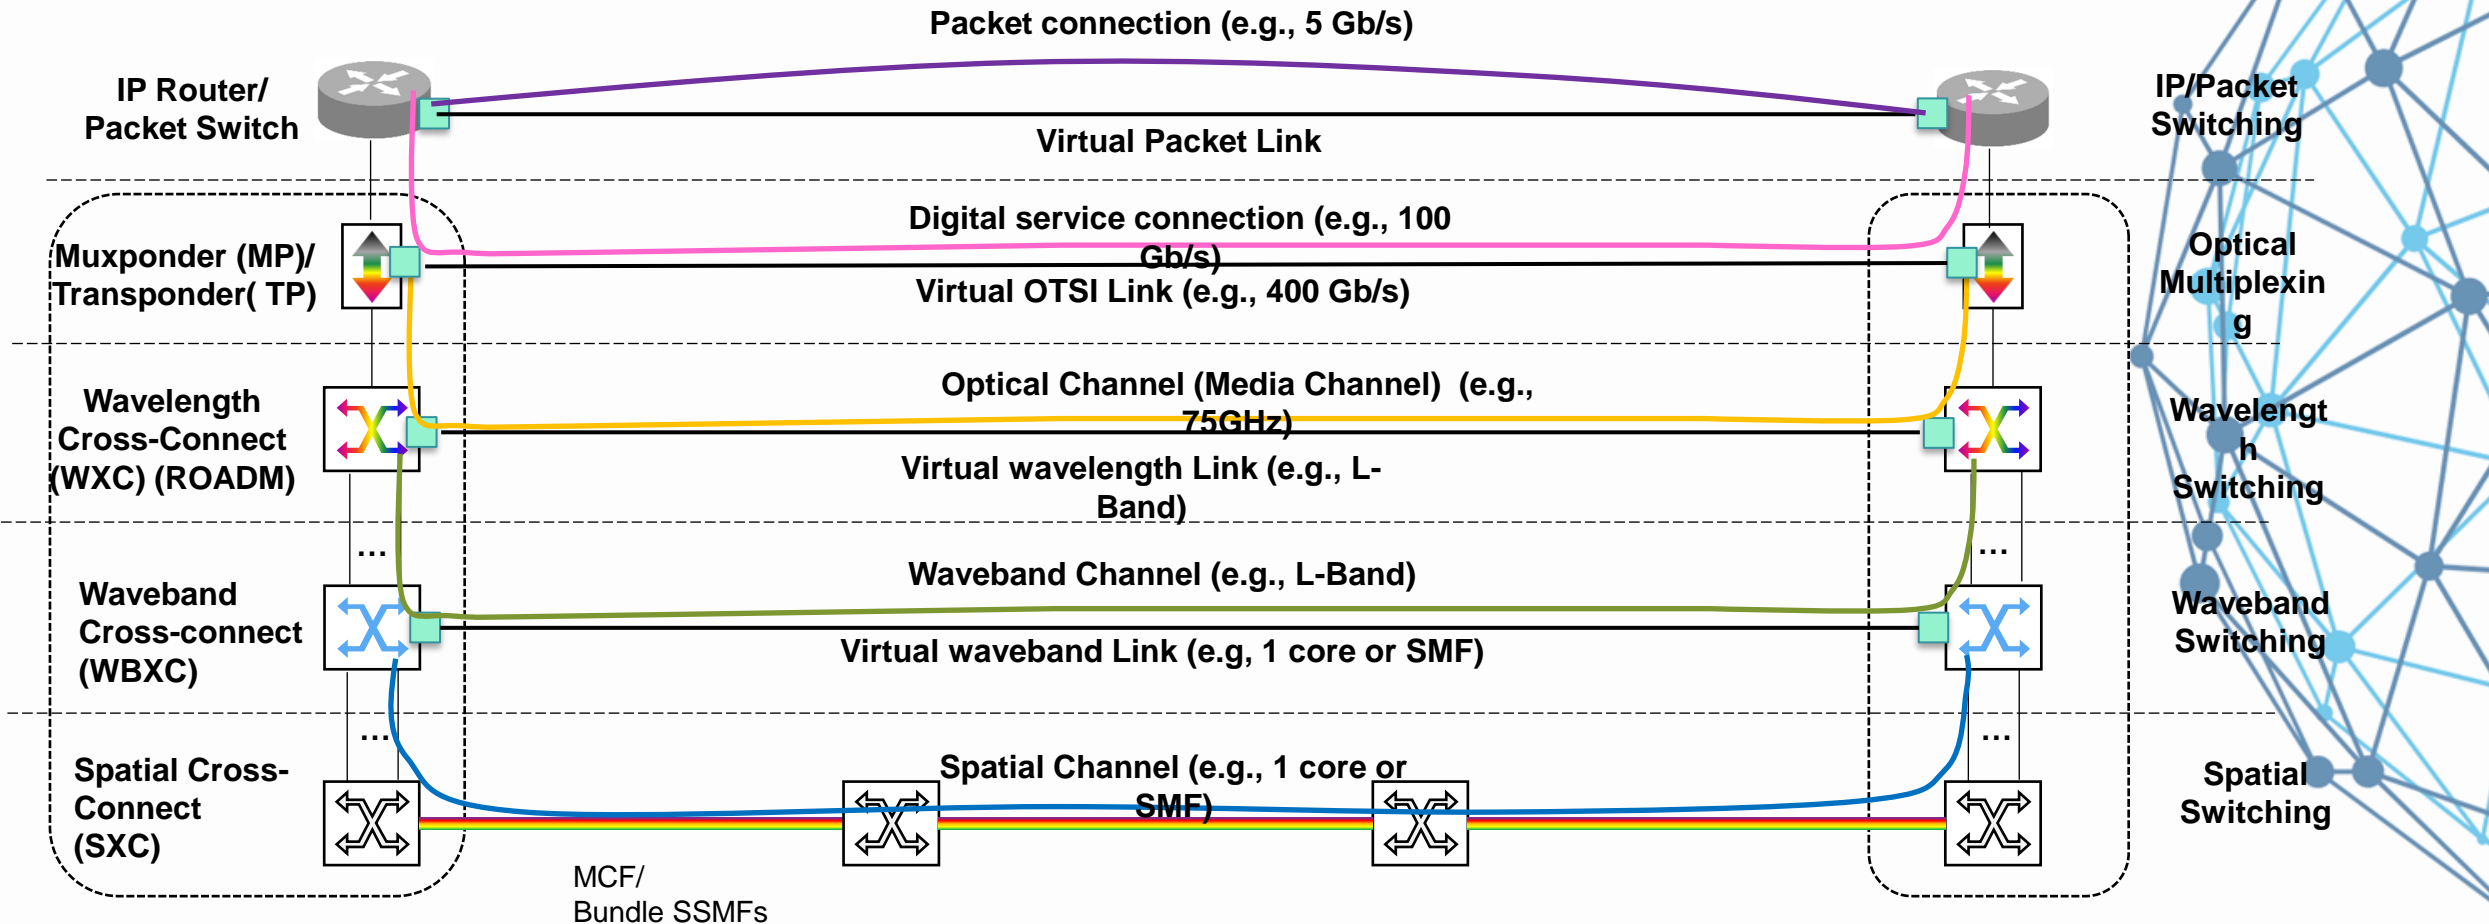

ENERGY-EFFICIENT AND LARGE-SCALE MANAGEMENT OF TRAFFIC FLOWS WITH DEDICATED QUALITY OF SERVICE (QOS)

FLEX-SCALE FUNCTIONAL TRANSPORT SDN CONTROL ARCHITECTURE

MULTI-GRANULAR OPTICAL NETWORK ARCHITECTURE: VIRTUAL NETWORK TOPOLOGY MANAGEMENT

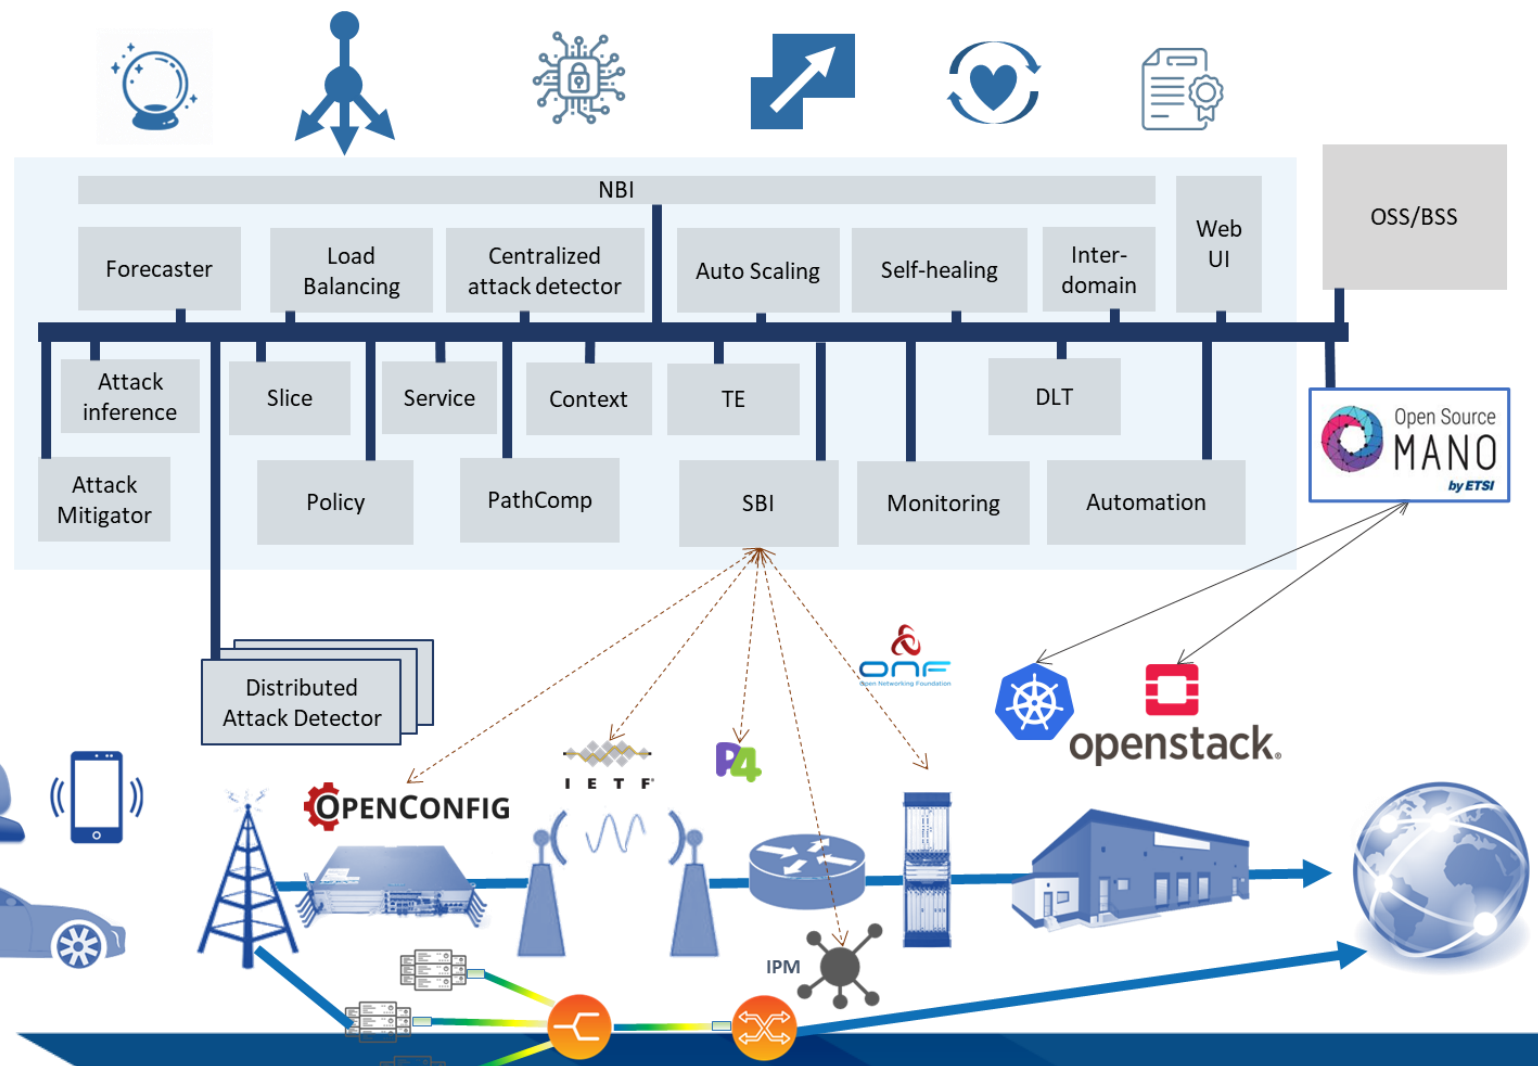

FLEX-SCALE

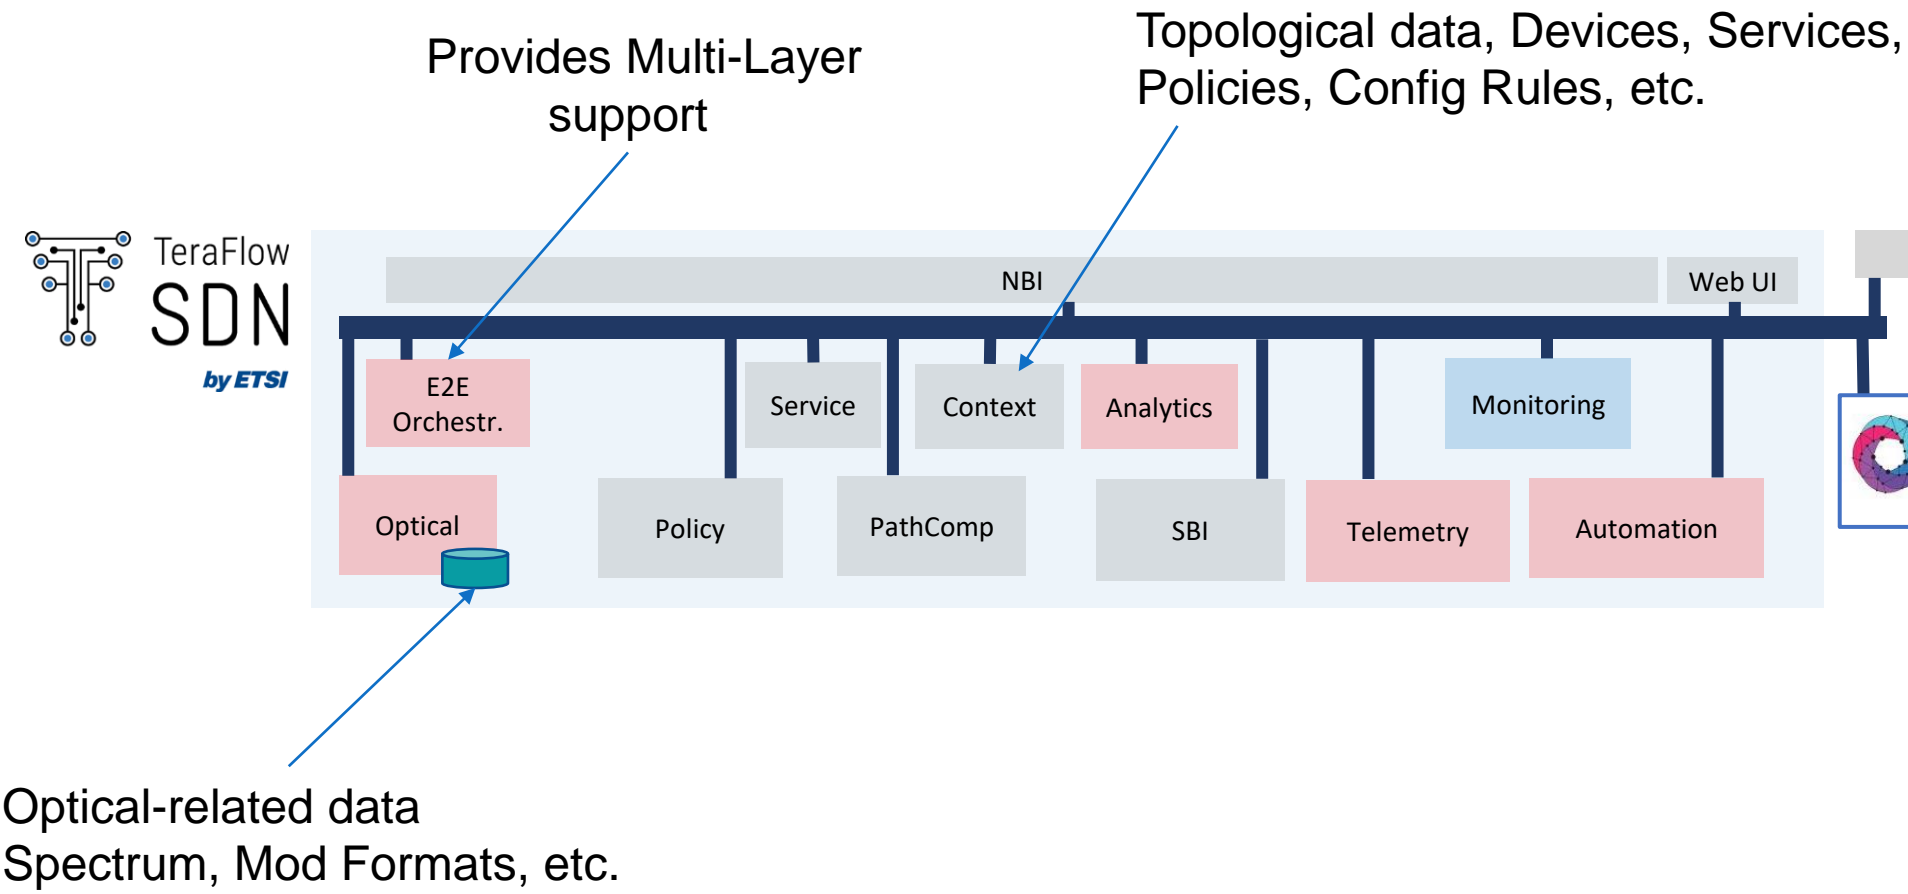

Flexibly Scalable Energy Efficient Networking

PROPOSED ADAPTATIONS FOR FLEX-SCALE

TFS ARCHITECTURE FOR RELEASE 2

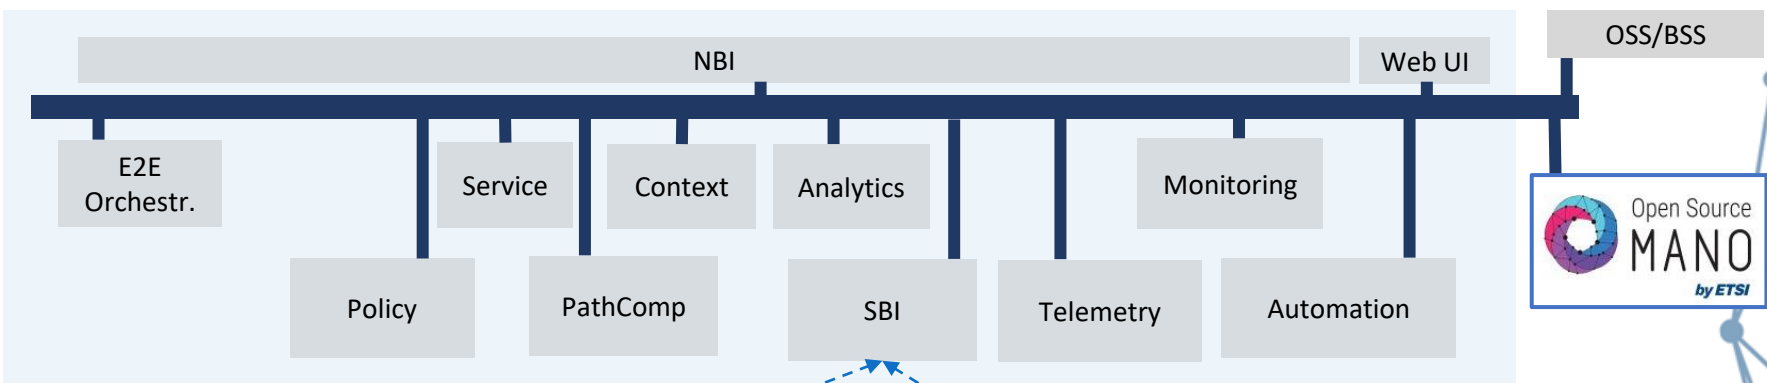

GENERIC ARCHITECTURE

E2E ORCHESTRATION (IP + OPTICAL)

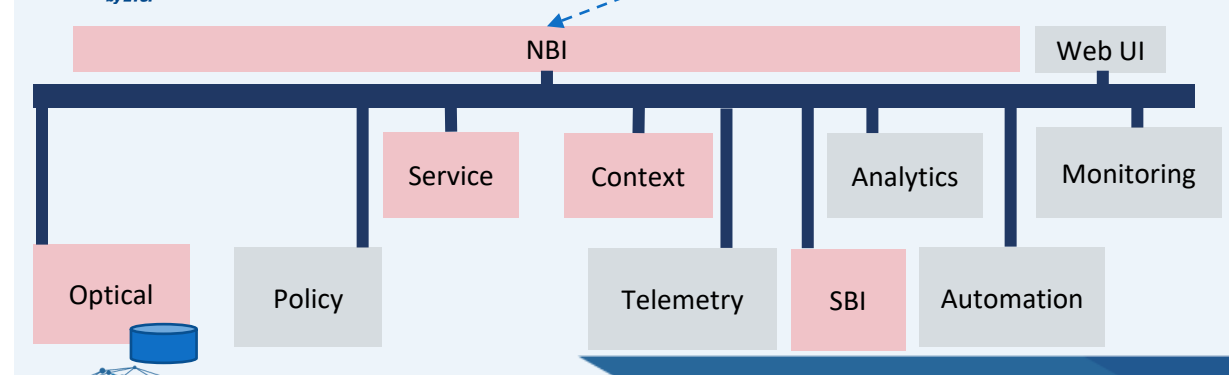

TeraFlow SDN by ETSI
End-to-end Orchestrator

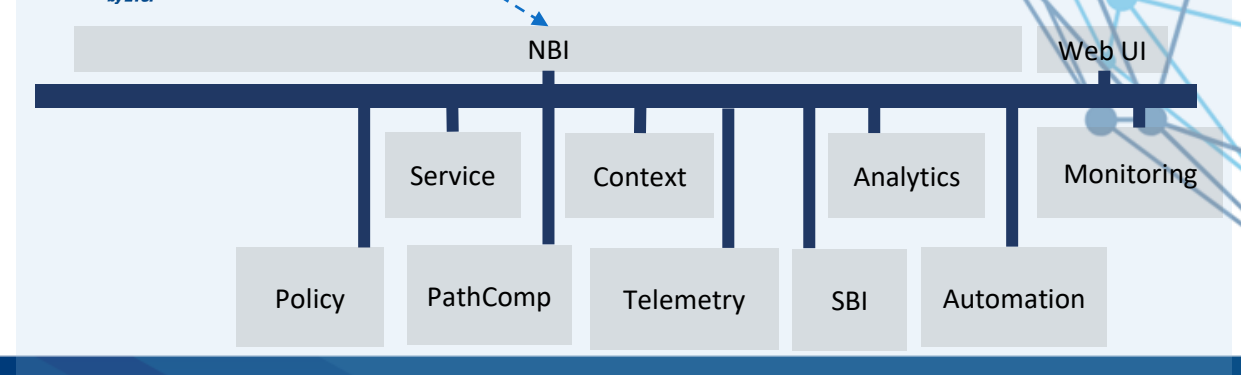

ONF Transport API (or simple REST-API)

IETF L2SM (L2VPN)

TeraFlow SDN by ETSI
Optical SDN Ctrl

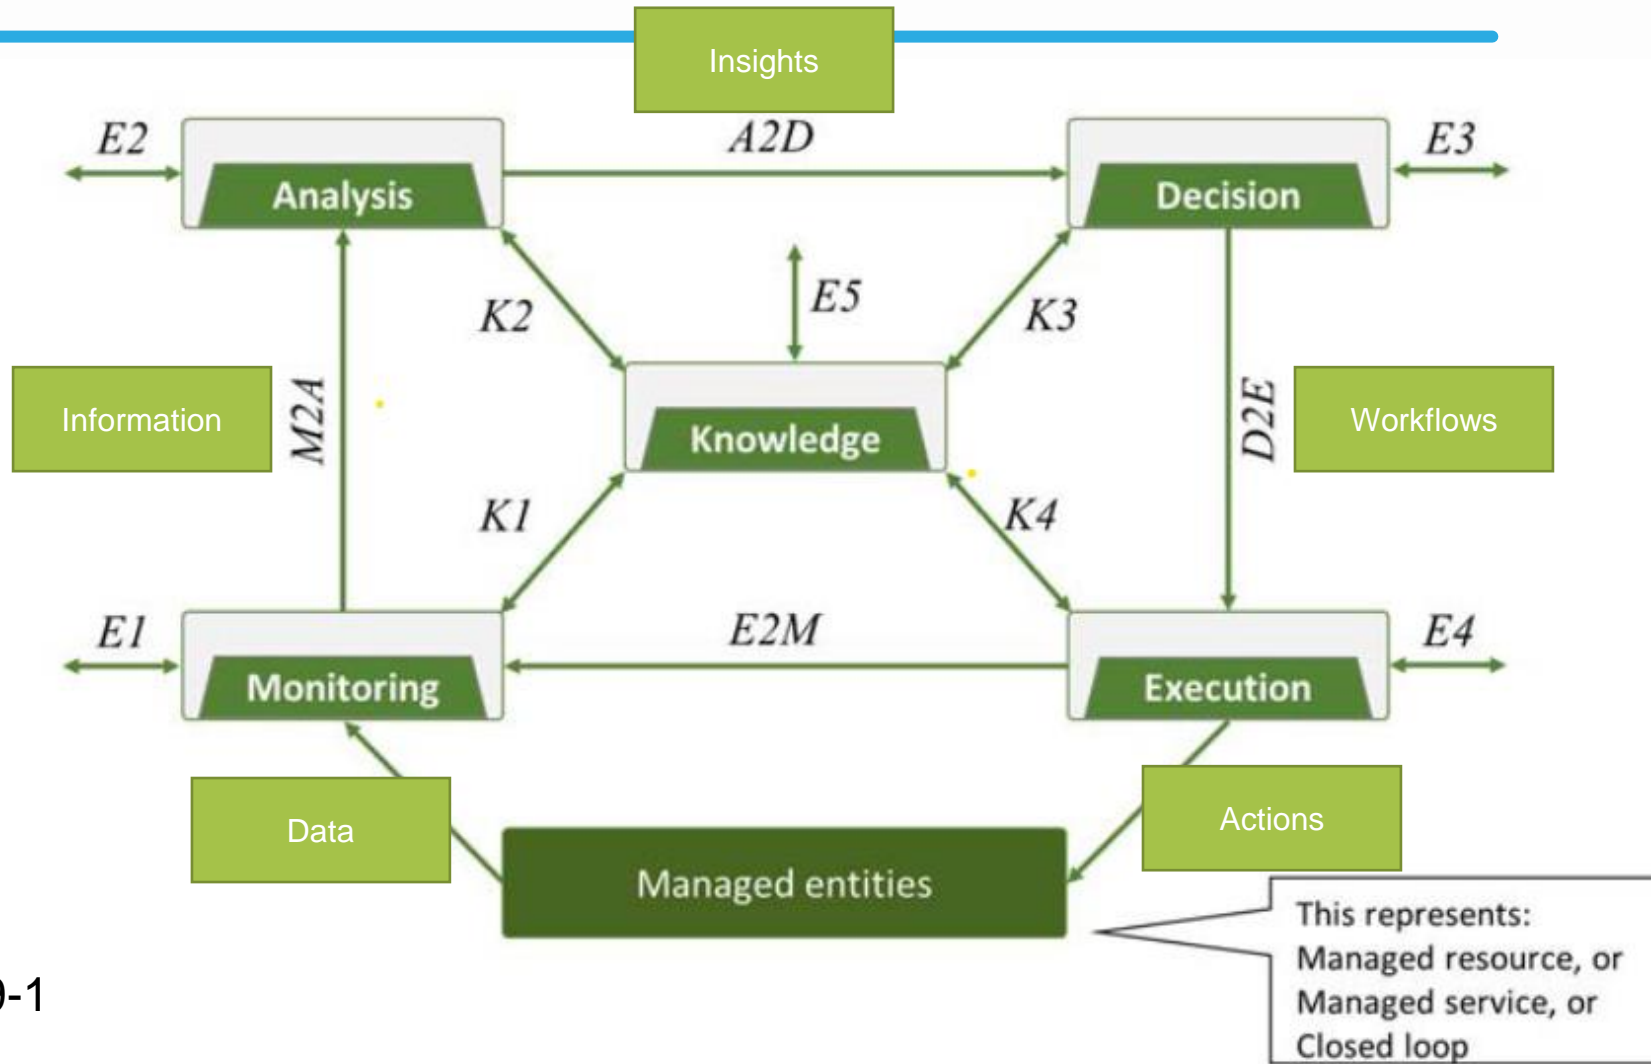

TeraFlow SDN by ETSI
IP SDN Ctrl

IP SDN Ctrl

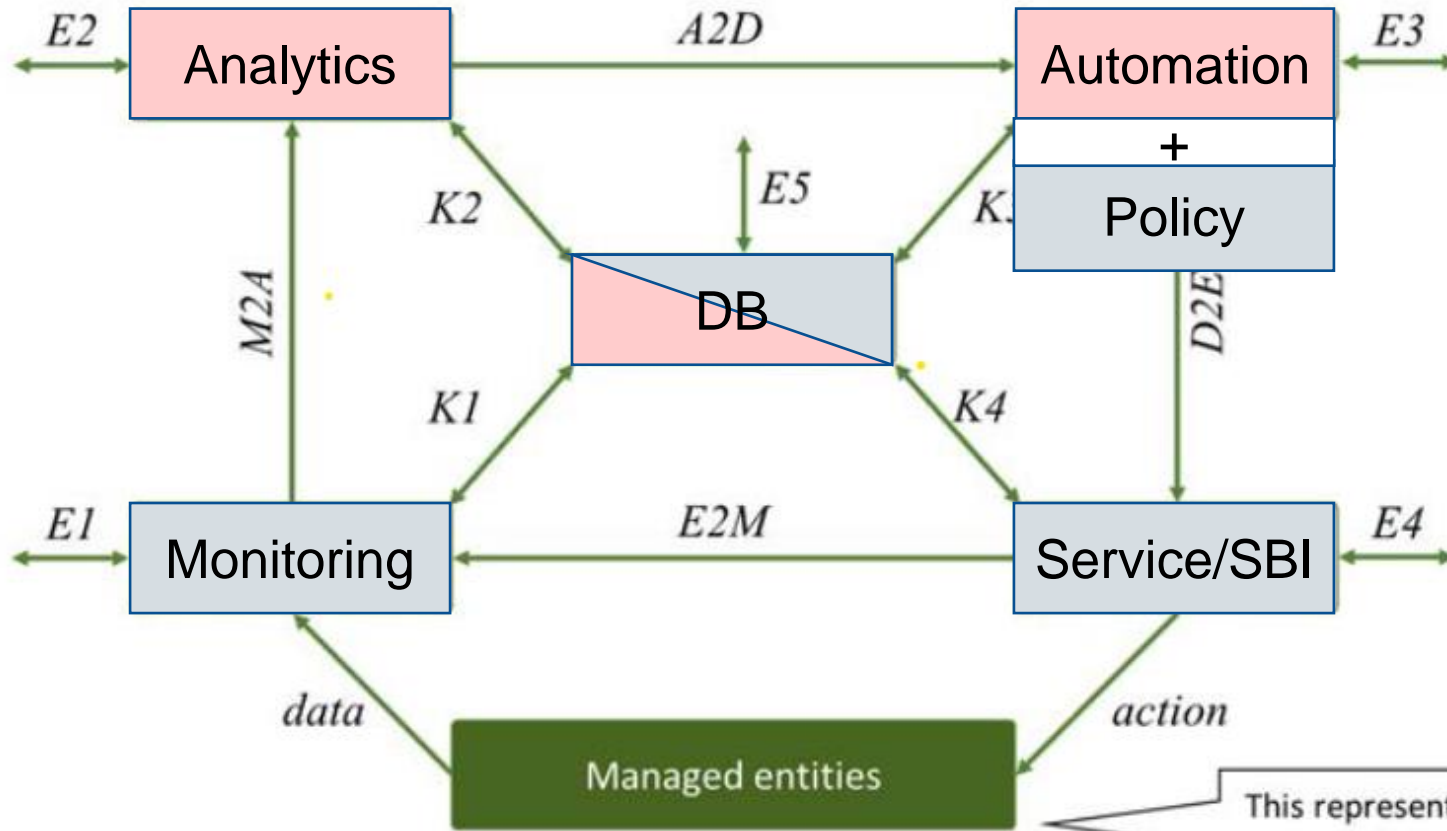

ZSM CLOSED LOOP

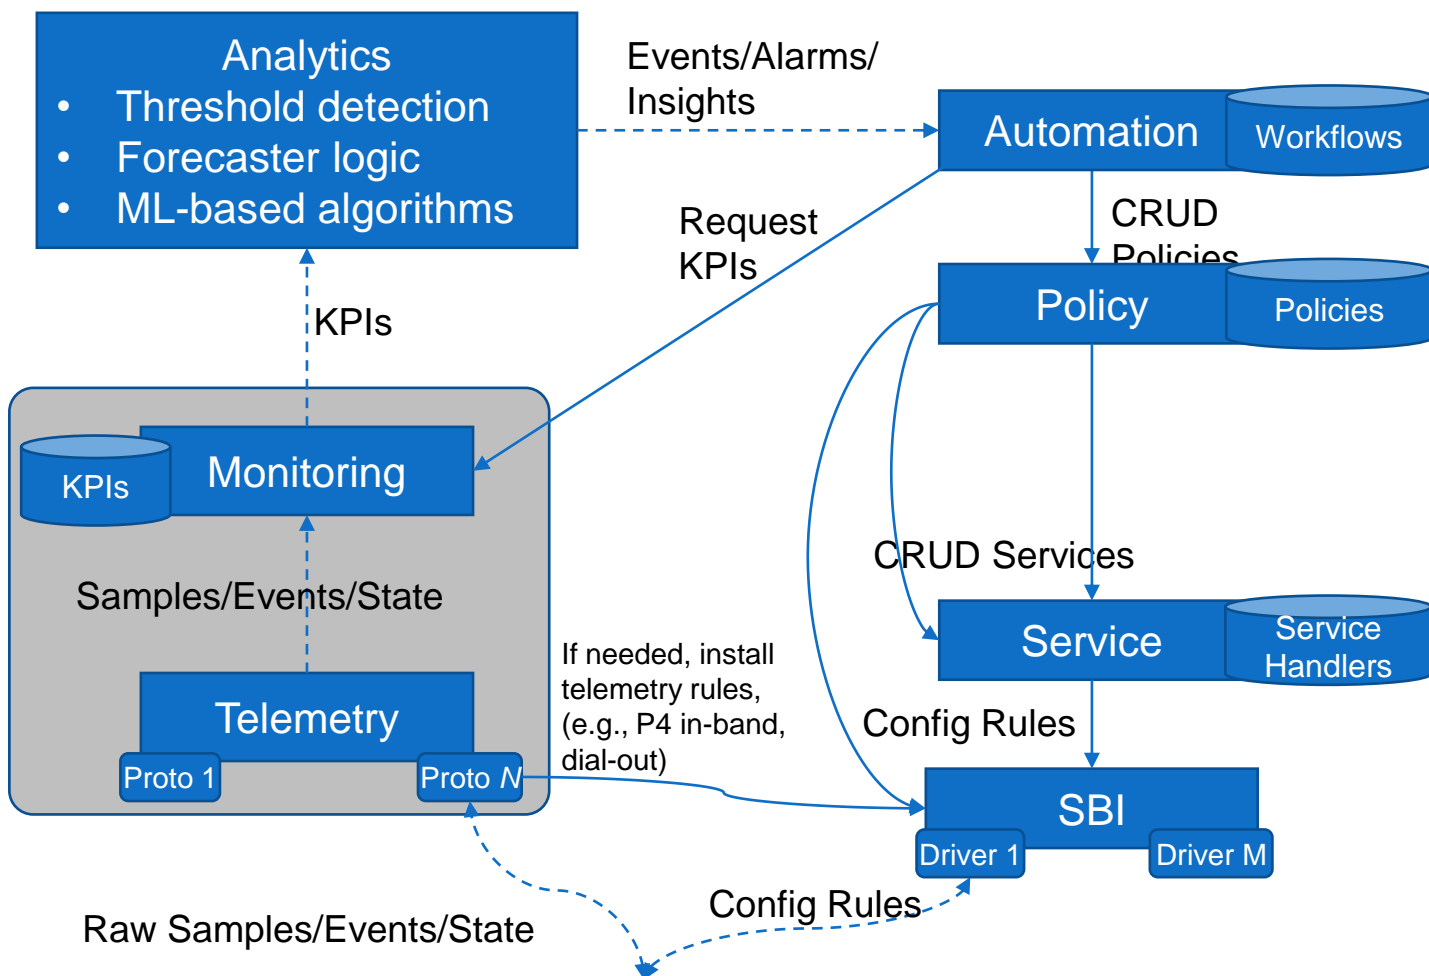

According to ETSI GS ZSM 009-1

MAPPING TO TFS

- New Component
- Existing Component

MONITORING-ANALYTICS-AUTOMATION LOOP

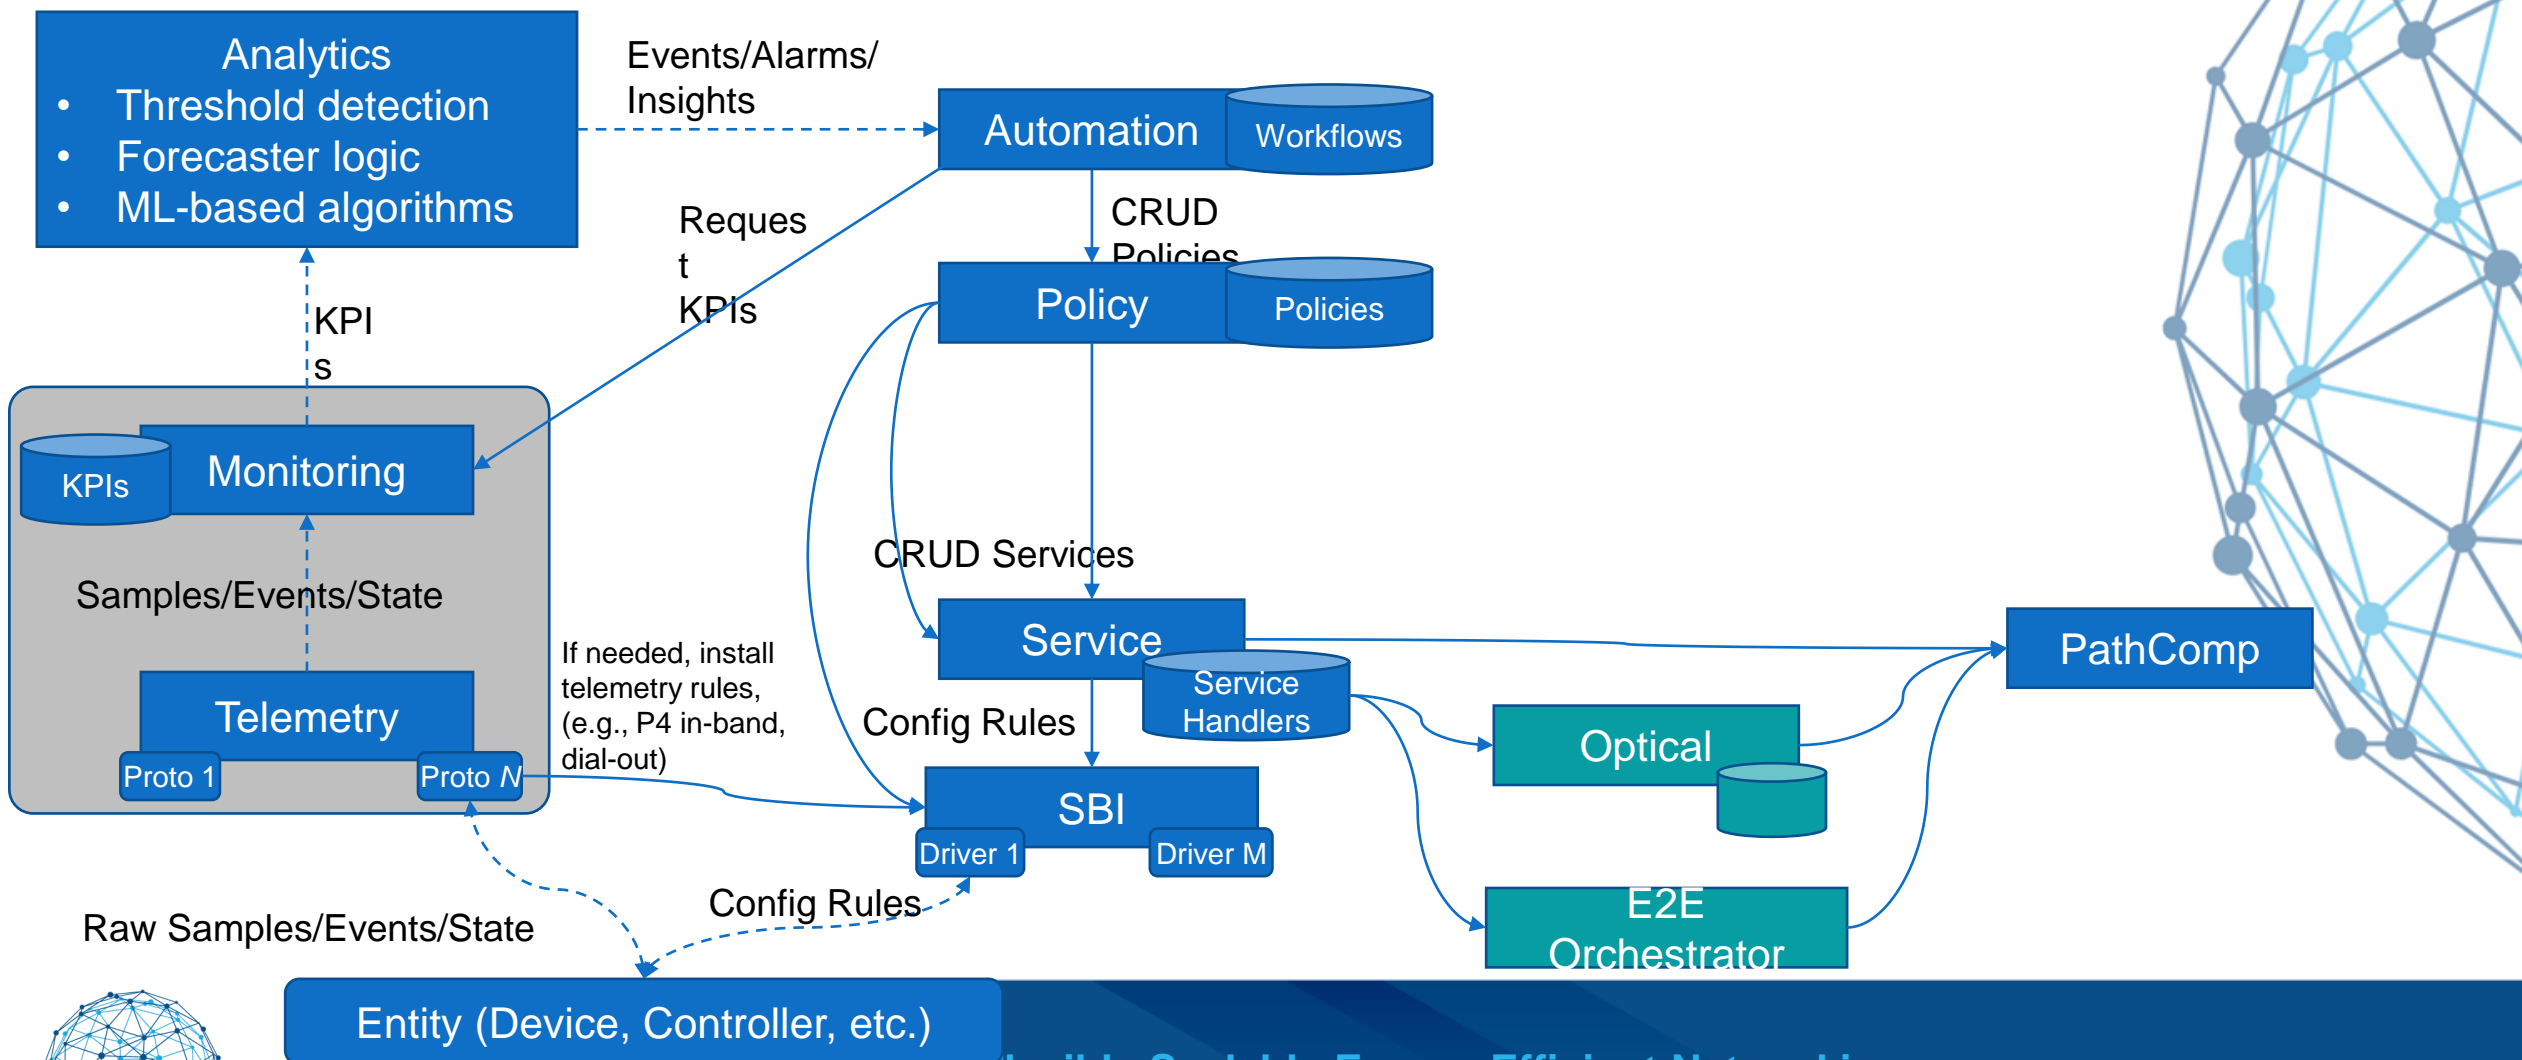

TFS	ZSM
Telemetry	Data Collection (ingestion)
Monitoring	Data Collection (management)
Analytics	Analytics
Automation	Intelligence (decision engine)
Policy	Orchestration
Service	Control/Orchestration (services)
SBI	Control (devices/sub-domains)

Policy and Automation implement Event-Condition-Action (ECA) loops:

- Given a triggered **<Event>**
- Check if **<Condition>** is met
- If so, perform the **<Action>** defined

COMPONENT INTERACTIONS

FLEX-SCALE

Flexibly Scalable Energy Efficient Networking

**THANK YOU FOR
YOUR ATTENTION**

FLEX-SCALE project is funded by the EU's Horizon Europe programme under Grant Agreement N° 101096909
