TFS – ContainerLab integration

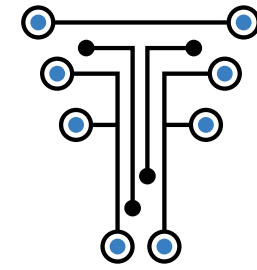

Issues

- ContainerLab deployment
 - ContainerLab didn't deploy correctly unless microk8s is up.
- TFS – ContainerLab VM's communication
 - Problems with bridge adapter of VBox on both sides. Resolved using the USB adapter in VBox.
- SRL version
 - Issue with using an older version of SR Linux that didn't had full support of OpenConfig. The component model wasn't present.

TFS – ContainerLab integration

Acomplishments

- TeraFlow deployment.
- ContainerLab deployment.
- TeraFlow onboarding of ContainerLab devices.
- Managed to get connectivity between the DC's.
